

Name _____

Date _____

Write the number of tens and ones.

For each case, complete the equation by writing the number of tens and ones.

$39 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$92 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$71 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$58 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$17 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$46 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$22 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$64 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$85 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$

$40 = \underline{\quad} \text{ Tens} + \underline{\quad} \text{ Ones}$
