

# Fun With Math

Complete by finding the value of each symbol

$$\text{Watermelon} - \text{Pear} = 2$$

$$\text{Watermelon} + \text{Watermelon} = 18$$

$$\text{Watermelon} + \text{Pear} = ?$$

$$\text{Watermelon} = \underline{\quad}$$

$$\text{Pear} = \underline{\quad}$$

$$\text{Lemon} + \text{Strawberry} = 12$$

$$\text{Lemon} + \text{Lemon} = 10$$

$$\text{Strawberry} - \text{Lemon} = ?$$

$$\text{Lemon} = \underline{\quad}$$

$$\text{Strawberry} = \underline{\quad}$$

# Answer Key

Complete by finding the value of each symbol

$$\begin{array}{r} 9 \\ \text{Watermelon} \end{array} - \begin{array}{r} 7 \\ \text{Pear} \end{array} = 2$$
$$\begin{array}{r} 9 \\ \text{Watermelon} \end{array} + \begin{array}{r} 9 \\ \text{Watermelon} \end{array} = 18$$
$$\begin{array}{r} 9 \\ \text{Watermelon} \end{array} + \begin{array}{r} 7 \\ \text{Pear} \end{array} = 16$$

$$\text{Watermelon} = 9$$

$$\text{Pear} = 7$$

$$\begin{array}{r} 5 \\ \text{Lemon} \end{array} + \begin{array}{r} 7 \\ \text{Strawberry} \end{array} = 12$$
$$\begin{array}{r} 5 \\ \text{Lemon} \end{array} + \begin{array}{r} 5 \\ \text{Lemon} \end{array} = 10$$
$$\begin{array}{r} 7 \\ \text{Strawberry} \end{array} - \begin{array}{r} 5 \\ \text{Lemon} \end{array} = 2$$

$$\text{Lemon} = 5$$

$$\text{Strawberry} = 7$$
