Data Interpretation - Bar Graph

Name _____

Date _____

Use the data from the bar graph to answer the questions.

The bar graph shows the number of couches sold by a furniture store on different days in a week.

1. How many more couches did the store sell on Friday than on Tuesday? _____
2. On which day did the store sell the least number of couches? _____
3. How many couches did the store sell on Thursday? _____
4. How many total couches did the store sell on all three days combined? _____
5. On which day did the store sell fewer couches: Tuesday or Thursday? _____
