

Fun With Math

Complete by finding the value of each symbol

$$\triangle - \diamond = 2$$

$$\pentagon + \diamond + \circ = 18$$

$$54 - \triangle = ? + \circ$$

$$\pentagon = \diamond - 2$$

$$\diamond + \diamond = 16$$

$\triangle = \underline{\hspace{2cm}}$

$\pentagon = \underline{\hspace{2cm}}$

$\diamond = \underline{\hspace{2cm}}$

$\circ = \underline{\hspace{2cm}}$

Answer Key

Complete by finding the value of each symbol

$$\triangle_{10} - \diamond_{8} = 2 \quad \square \quad \square$$

$$\pentagon_{6} + \diamond_{8} + \circ_{4} = 18$$

$$54 - \triangle_{10} = 40 + \circ_{4}$$

$$\pentagon_{6} = \diamond_{8} - 2 \quad \square \quad \square$$

$$\diamond_{8} + \diamond_{8} = 16 \quad \square \quad \square$$

$$\triangle = \underline{10}$$

$$\pentagon = \underline{6}$$

$$\diamond = \underline{8}$$

$$\circ = \underline{4}$$
