

Fun with Math

Complete by finding the value of each symbol

$$\text{Key} \times \text{Scissors} = 75$$

$$\text{Scissors} \times \text{Paperclip} = 15$$

$$13 \times \text{Key} = 65$$

$$\text{Key} \times \text{Paperclip} = ?$$

$$\text{Key} = \underline{\quad}$$

$$\text{Paperclip} = \underline{\quad}$$

$$\text{Scissors} = \underline{\quad}$$

$$\text{Scooter} \times \text{Bus} = 98$$

$$\text{Bus} \times \text{Car} = 105$$

$$9 \times \text{Scooter} = 126$$

$$\text{Scooter} \times \text{Car} = ?$$

$$\text{Scooter} = \underline{\quad}$$

$$\text{Bus} = \underline{\quad}$$

$$\text{Car} = \underline{\quad}$$

Answer Key

Complete by finding the value of each symbol

$$\begin{matrix} 5 \\ \text{key} \end{matrix} \times \begin{matrix} 15 \\ \text{scissors} \end{matrix} = 75$$

$$\begin{matrix} 15 \\ \text{scissors} \end{matrix} \times \begin{matrix} 1 \\ \text{paperclip} \end{matrix} = 15$$

$$13 \times \begin{matrix} 5 \\ \text{key} \end{matrix} = 65$$

$$\begin{matrix} 5 \\ \text{key} \end{matrix} \times \begin{matrix} 1 \\ \text{paperclip} \end{matrix} = 5$$

$$\text{key} = \underline{5}$$

$$\text{paperclip} = \underline{1}$$

$$\text{scissors} = \underline{15}$$

$$\begin{matrix} 14 \\ \text{motorcycle} \end{matrix} \times \begin{matrix} 7 \\ \text{bus} \end{matrix} = 98$$

$$\begin{matrix} 7 \\ \text{bus} \end{matrix} \times \begin{matrix} 15 \\ \text{car} \end{matrix} = 105$$

$$9 \times \begin{matrix} 14 \\ \text{motorcycle} \end{matrix} = 126$$

$$\begin{matrix} 14 \\ \text{motorcycle} \end{matrix} \times \begin{matrix} 15 \\ \text{car} \end{matrix} = 210$$

$$\text{motorcycle} = \underline{14}$$

$$\text{bus} = \underline{7}$$

$$\text{car} = \underline{15}$$
