

Fun With Math

Complete by finding the value of each symbol

$$\text{Shopping Bag} \times \text{Shopping Cart} = 88$$

$$\text{Shopping Bag} \times \text{Shopping Bag} = 104$$

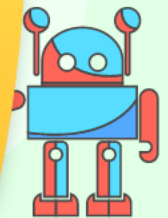

$$4 \times \text{Shopping Bag} = 52$$

$$\text{Shopping Bag} \times \text{Shopping Cart} = ?$$

$$\text{Shopping Bag} = \underline{\quad}$$

$$\text{Shopping Cart} = \underline{\quad}$$

$$\text{Shopping Bag} = \underline{\quad}$$

$$\text{Truck} \times \text{Tag} = 60$$

$$\text{Keyboard} \times \text{Truck} = 28$$

$$2 \times \text{Tag} = 30$$

$$\text{Truck} \times \text{Keyboard} = ?$$

$$\text{Truck} = \underline{\quad}$$

$$\text{Tag} = \underline{\quad}$$

$$\text{Keyboard} = \underline{\quad}$$

Answer Key

Complete by finding the value of each symbol

$$\begin{array}{l} 8 \times \text{Shopping Cart} = 88 \\ 13 \times \text{Shopping Bag} = 104 \\ 4 \times \text{Shopping Bag} = 52 \\ 13 \times \text{Shopping Cart} = 143 \end{array}$$

$$\begin{array}{l} \text{Shopping Bag} = 8 \\ \text{Shopping Cart} = 11 \\ \text{Shopping Bag} = 13 \end{array}$$

$$\begin{array}{l} 4 \times \text{Truck} = 60 \\ 7 \times \text{Keyboard} = 28 \\ 2 \times \text{Tag} = 30 \\ 4 \times \text{Truck} = 28 \end{array}$$

$$\begin{array}{l} \text{Truck} = 4 \\ \text{Tag} = 15 \\ \text{Keyboard} = 7 \end{array}$$
