

# Fun With Math

Complete by finding the value of each symbol

$$\text{Megaphone} \times \text{Folder} = 99$$

$$\text{Folder} \div \text{Trophy} = 3$$

$$132 \div \text{Megaphone} = 12$$

$$\text{Megaphone} \times \text{Trophy} = ?$$

$$\text{Megaphone} = \underline{\quad}$$

$$\text{Trophy} = \underline{\quad}$$

$$\text{Folder} = \underline{\quad}$$

$$\text{Bell} \div \text{Game Controller} = 4$$

$$\text{Game Controller} \times \text{Clapperboard} = 21$$

$$72 \div \text{Bell} = 6$$

$$\text{Bell} \times \text{Clapperboard} = ?$$

$$\text{Bell} = \underline{\quad}$$

$$\text{Game Controller} = \underline{\quad}$$

$$\text{Clapperboard} = \underline{\quad}$$

# Answer Key

Complete by finding the value of each symbol

$$\begin{matrix} 11 \\ \text{Megaphone} \end{matrix} \times \begin{matrix} 9 \\ \text{Briefcase} \end{matrix} = 99$$

$$\begin{matrix} 9 \\ \text{Briefcase} \end{matrix} \div \begin{matrix} 3 \\ \text{Trophy} \end{matrix} = 3$$

$$132 \div \begin{matrix} 11 \\ \text{Megaphone} \end{matrix} = 12$$

$$\begin{matrix} 11 \\ \text{Megaphone} \end{matrix} \times \begin{matrix} 3 \\ \text{Trophy} \end{matrix} = 33$$

$$\text{Megaphone} = 11$$

$$\text{Trophy} = 3$$

$$\text{Briefcase} = 9$$

$$\begin{matrix} 12 \\ \text{Bell} \end{matrix} \div \begin{matrix} 3 \\ \text{Game Controller} \end{matrix} = 4$$

$$\begin{matrix} 3 \\ \text{Game Controller} \end{matrix} \times \begin{matrix} 7 \\ \text{Clapperboard} \end{matrix} = 21$$

$$72 \div \begin{matrix} 12 \\ \text{Bell} \end{matrix} = 6$$

$$\begin{matrix} 12 \\ \text{Bell} \end{matrix} \times \begin{matrix} 7 \\ \text{Clapperboard} \end{matrix} = 84$$

$$\text{Bell} = 12$$

$$\text{Game Controller} = 3$$

$$\text{Clapperboard} = 7$$
