

Fun with Math

Complete by finding the value of each symbol

$$\text{Robot} \div \text{Umbrella} = \text{Bell}$$

$$\text{Robot} + \text{Bell} = 224$$

$$\text{Bell} \div 2 = 7$$

$$\text{Umbrella} - \text{Bell} = ?$$

$$\text{Bell} = \underline{\quad}$$

$$\text{Robot} = \underline{\quad}$$

$$\text{Umbrella} = \underline{\quad}$$

$$\text{Saw} \times \text{Hammer} = 56$$

$$\text{Paint Roller} + \text{Saw} = 24$$

$$52 \div \text{Hammer} = 13$$

$$\text{Saw} \times \text{Paint Roller} = ?$$

$$\text{Paint Roller} = \underline{\quad}$$

$$\text{Saw} = \underline{\quad}$$

$$\text{Hammer} = \underline{\quad}$$

Answer Key

Complete by finding the value of each symbol

$$\begin{array}{l} \text{Atom} \div \text{House} = \text{Bell} \\ \text{Atom} + \text{Bell} = 224 \\ \text{Bell} \div 2 = 7 \\ \text{House} - \text{Bell} = 1 \end{array}$$

$$\text{Bell} = \underline{14}$$

$$\text{Atom} = \underline{210}$$

$$\text{House} = \underline{15}$$

$$\begin{array}{l} \text{Saw} \times \text{Screwdriver} = 56 \\ \text{Paintbrush} + \text{Saw} = 24 \\ 52 \div \text{Screwdriver} = 13 \\ \text{Saw} \times \text{Paintbrush} = 140 \end{array}$$

$$\text{Paintbrush} = \underline{10}$$

$$\text{Saw} = \underline{14}$$

$$\text{Screwdriver} = \underline{4}$$
