

Fun With Math

Complete by finding the value of each symbol

+

=

16

=

x

-

=

36

÷

=

12

+

-

=

?

+

=

= _____

= _____

= _____

= _____

= _____

Answer Key

Complete by finding the value of each symbol

$$\text{Chair}^4 + \text{Sofa}^1 = \text{Table}^5 \quad \square$$

$$16 = \text{Chair}^4 \times \text{Chair}^4 \quad \square$$

$$\text{Chair}^4 - \text{House}^3 = \text{Sofa}^1 \quad \square$$

$$36 \div \text{House}^3 = 12 \quad \square \quad \square$$

$$\text{Table}^5 + \text{Bed}^2 - \text{House}^3 = 4 \quad \square$$

$$\text{Sofa}^1 + \text{Sofa}^1 = \text{Bed}^2 \quad \square$$

$$\text{Table} = \underline{5}$$

$$\text{Sofa} = \underline{1}$$

$$\text{Chair} = \underline{4}$$

$$\text{House} = \underline{3}$$

$$\text{Bed} = \underline{2}$$
