

Fun With Math

Complete by finding the value of each symbol

$$\text{Candle} + \text{Apple} = \text{Cup} - 4$$

$$30 \div \text{Noodles} = \text{Blender}$$

$$\text{Cup} \times \text{Noodles} = ?$$

$$\text{Cup} = \text{Candle} + \text{Candle}$$

$$\text{Cup} \times \text{Cup} = 144$$

$$\text{Blender} \div \text{Apple} = 5$$

Blank area for writing answers to the equations on the right.

$$\text{Noodles} = \underline{\hspace{2cm}}$$

$$\text{Cup} = \underline{\hspace{2cm}}$$

$$\text{Apple} = \underline{\hspace{2cm}}$$

$$\text{Blender} = \underline{\hspace{2cm}}$$

$$\text{Candle} = \underline{\hspace{2cm}}$$

Answer Key

Complete by finding the value of each symbol

$$\text{Cake} \times 6 + \text{Apple} \times 2 = \text{Mug} \times 12 - 4$$

$$30 \div \text{Bowl} \times 3 = \text{Blender} \times 10$$

$$\text{Mug} \times 12 \times \text{Bowl} \times 3 = 36$$

$$\text{Mug} \times 12 = \text{Cake} \times 6 + \text{Cake} \times 6$$

$$\text{Mug} \times 12 \times \text{Mug} \times 12 = 144$$

$$\text{Blender} \times 10 \div \text{Apple} \times 2 = 5$$

$\text{Bowl} = 3$

$\text{Mug} = 12$

$\text{Apple} = 2$

$\text{Blender} = 10$

$\text{Cake} = 6$
