

# Fun With Math

Complete by finding the value of each symbol

$$\text{Orange Circle} \div \text{Green Diamond} = \text{Orange Triangle}$$

$$\text{Teal Pentagon} = \text{Orange Circle} - 14$$

$$33 \div \text{Blue Square} = 11$$

$$\text{Blue Square} + 1 + \text{Blue Square} = \text{Orange Triangle}$$

$$\text{Teal Pentagon} = \text{Orange Triangle} \times \text{Blue Square}$$

$$\text{Red Question Mark} = \text{Orange Circle} \times \text{Green Diamond}$$

$$\text{Blue Square} = \underline{\hspace{2cm}}$$

$$\text{Orange Circle} = \underline{\hspace{2cm}}$$

$$\text{Green Diamond} = \underline{\hspace{2cm}}$$

$$\text{Teal Pentagon} = \underline{\hspace{2cm}}$$

$$\text{Orange Triangle} = \underline{\hspace{2cm}}$$

# Answer Key

Complete by finding the value of each symbol

$$\text{Orange Circle} \div \text{Green Diamond} = \text{Orange Triangle}$$

$$\text{Cyan Pentagon} = \text{Orange Circle} - 14$$

$$33 \div \text{Blue Square} = 11$$

$$\text{Blue Square} + 1 + \text{Blue Square} = \text{Orange Triangle}$$

$$\text{Cyan Pentagon} = \text{Orange Triangle} \times \text{Blue Square}$$

$$175 = \text{Orange Circle} \times \text{Green Diamond}$$

$$\text{Blue Square} = 3$$

$$\text{Orange Circle} = 35$$

$$\text{Green Diamond} = 5$$

$$\text{Cyan Pentagon} = 21$$

$$\text{Orange Triangle} = 7$$
